

MINI DUCTOR[®] VENOM[®]

Ideal for workshops or in those sectors that need high levels of heat

MINI DUCTOR[®] heat inductors are ideal in the automotive field

for some applications such as:

- release nuts and bolts and extract mufflers
- release of the steering arms

Design: portable gun

Standard technical features:

- hand torch flow concentrator
- integrated power generator
- locking mechanism designed to facilitate insertion and extraction

ART - II MV-888

432x254x127h mm

370x152x82,2 h mm

5,2 KG

Directives and Certification:

- MD 2006/42/EU
- Directive 2013/35/EU
- EMC Directive 2014/30/EU
- RoHS 2011/65/EU
- EC Directive 2012/19/EU

ART - ED-FL

ED-20

ED-U

Input power 1 Kw - 16A
Electrical connection IEC60309

2 m Network cable

230VAC/ 50

IP

IP 21

Working frequency 3-30 KHz

Main circuit breaker

Working cycle 2 min ON / 2 min OFF

APPLICATION EXAMPLES
